

The unique space-saving and ergonomic design of the PMT E6430 vehicle dock provides easy access, user protection and device security.

Dell E6430 notebook

Features	Benefits
Aircraft-grade aluminum construction	High strength, corrosion resistant, reduced vibration, and long-term durability
Compact, low profile, contoured design	Small footprint: occupies less cabin space; rounded corners and contoured edges for safety
Docking interface plate	Allows for mounting system flexibility and easy integration; fits existing or new installations
Captured key lock system	Ensures occupant safety and protection; locks device securely for theft prevention
Simple installation and operation	Easy lever-engaging mechanism allows for reliable docking and undocking
