

# BOOM ARM MOTION MOUNT

## FEATURES

- Lightweight, high-grade, CNC machined aluminum construction
- Ergonomic design for safety and usability
- Can be bolted directly to bulkheads, pre-existing consoles, etc. using 5" x 5" base plate
- User-friendly design allows for a variety of motions and device positions
- Swivel / swing capability (extension arm on pivot)
- Over a 214° rotation automatically locks in-place for optimal positioning of vehicle dock or cradle
- Indexing slide movement allows for travel and lock along an 11" arm
- Limited lifetime warranty
