

2021+ CHEVROLET TAHOE RADIO / SIREN DASHMOUNTS

The PMT dash mounts for 2021+ Chevrolet Tahoe models offer mounting options for a wide range of equipment including radios, siren and light controllers, cell phones and light weight tablets. Positioned on top of the vehicle's dashboard, these items help to aid in keeping the vehicle operator's line of sight over the dashboard for increased safety, visibility and easy accessibility for convenient operation of the equipment with the siren controller able to flip up and provide access to the vehicle dash controls and screen. The unit is easy to install and made of lightweight yet rugged aluminum and available in a range of configurations to best suit the vehicle's specifications and needs.
