

The PMT K9 console is available with textured, rubber top-coating to allow for easy canine egress.

Features	Benefits
Ergonomics and safety	Designed for comfort, easy access and operation; rounded corners, contoured edges and break-away capabilities can prevent injury and assure occupant protection
Easy installation	Simple set-up and upfitting with no drilling or permanent modification to vehicle
Modular and versatile design	Includes face plates and brackets to contain an assortment of application-specific or custom modules including siren and light controls, switch panels, DVR controls, modems, radios, control heads, HDD, etc.
Aircraft-grade aluminum construction	High strength, strong and sturdy enclosure provides corrosion resistance, vibration reduction and long-term durability
Motion mount	Articulating motion mount (fixed-tilt, swivel and rotation) is installed on console for optimal positioning and ergonomics
