

## TABLET TILT MOUNT

The tablet tilt mount from PMT allows for a docking station or cradle to be attached to any flat horizontal surface such as a motion mount, forklift mount or baseline pedestal. Versatile VESA 75 hole pattern positioning allows for the tablet tilt mount to also be orientated upside-down for overhead positioning. A quick release handle allows for easy tilt adjustment and can be rotated through a full 360 degrees.

## FEATURES

- Ergonomic, slim, low profile design
- Aircraft-grade CNC machined solid aluminum construction
- Fits on top of consoles, motion mounts or any other flat, horizontal surface
- Adjustable angle via quick release handle for easy tilt adjustment
- Multiple VESA 75mm hole pattern positions
- High-durability black epoxy powder coat finish
- Limited lifetime warranty
